Office Action Summary

Art Unit: 1712

DETAILED ACTION

Claim Objections

1. Claim 32 is objected to because of the following informalities: the "he" should be "the"..
Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 22 and 23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 22 teaches methanol and alcohol as alternative ingredients. Since methanol is an alcohol, the meaning of the term "alcohol" in the claim is not clear. Dependent claim falls herewith.

Art Unit: 1712

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in-

- (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or
- (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

5. Claims 1-3, 18, 19, 24, 26-28, 30, 32 and 36 are rejected under 35 U.S.C. 102(e) as being anticipated by Tibbles et al. (6140277).

Tibbles teaches a composition which can be used for well applications such as gravel packing, which comprises a viscoelastic surfactant within the scope of the present invention (column 7, lines 54-57), and a breaker comprising an encapsulated ammonium persulfate and dipotassium EDTA, which is a carboxylate salt (column 5, lines 53-57).

6. Claim 31 is rejected under 35 U.S.C. 102(e) as being anticipated by Chang et al. (6399546).

Chang teaches a zwitterionic viscoelastic surfactant for use in subterranean formations which comprises citric acid (see claims 10-21).

Art Unit: 1712

7. Claims 4-17, 20, 21, 25, 29, 33-35 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philip Tucker whose telephone number is (703) 308-0529. The examiner's normal working hours are 7:30am-4:00pm, Monday-Friday. If necessary SPE Robert Dawson may be contacted at 703-308-2340.
